

**An Internship Report**  
Of  
**Video Editing & Content Creation Virtual Internship**

Submitted  
To  
**School of Computer Science and Engineering**  
**IILM University, Greater Noida, U.P.**

In partial fulfilment of the requirement of degree of  
**B.Tech CSE AI-ML**

By  
Roll Number of Student:  
25SCS1003000591  
Name of Student: RITU KUMARI  
Batch: 2025-2029

## **CANDIDATE'S DECLARATION**

I, RITU KUMARI, do hereby declare that the internship report titled “Video Editing & Content Virtual Internship” has been completed by me to fulfil the requirement for the award of the degree of Bachelor of Technology in Computer Science and Engineering. All the references have been quoted and I have not taken as such any material from any other source. I affirm that this report is my own and has not been submitted to any other institute for any degree/diploma requirement, and further I shall be solely responsible for any kind of copyright violation in this regard.

Signature:-

**Student Name: RITU KUMARI**

**Roll No.: 25SCS1003000591**

## **ACKNOWLEDGEMENT**

I am using this opportunity to express my gratitude to everyone who supported me throughout the Internship Program. I am thankful for their aspiring guidance, invaluable constructive criticism and friendly advice during this work. I am sincerely grateful to them for sharing their truthful and illuminating views on a number of issues related to this work.

I would like to thank the Drops Of Change Organization team for providing me the opportunity and the platform to gain practical, real-world exposure in the domain of Video Editing and Digital Storytelling. I am also deeply thankful to my institute, IILM University, Greater Noida, and the faculty of the School of Computer Science and Engineering for their continuous support and academic encouragement.

I express my gratitude to my parents for their blessings.

Signature:-

**Student Name: RITU KUMARI**

**Roll No.: 25SCS1003000591**

### 3. Internship Completion Certificate & Overview

Date of Issue : 02 Aug 2026  
Certificate No. : 10086  
www.dropsofchange.in

(Regd No. HR002202200648)

★★★★★

This is to certify that

**Ritu Kumari**

has successfully completed Internship as

**Video Editor**

From 01<sup>st</sup> Jun 2026 To 01<sup>st</sup> Aug 2026

  
"Congratulations on completing your internship!"

Your dedication, hard work, and enthusiasm have truly shone through during your time with us. May your future be filled with continued success, growth, and fulfilment!

## **4. PROJECT DESCRIPTION**

### **1. Introduction**

This report presents a comprehensive account of the remote internship undertaken at Drops of Change in the domain of "Video Editing & Content Creation". The internship took place from 1st June 2026 to 1st August 2026 as part of the academic curriculum for the Bachelor of Technology (Computer Science & Engineering) programme at IILM University, Greater Noida.

The primary objective of this internship was to build a strong practical foundation in non-linear editing (NLE), visual pacing, text motion, and digital storytelling, applying these principles to create impactful social awareness media campaigns.

The internship followed a structured, milestone-driven workflow combining creative storytelling with hands-on video editing, regular progress reviews, and campaign implementation. On successful completion of all requirements, the official Internship Certificate of Completion (Certificate No.: 10086) was awarded by Drops of Change.

### **2. Organization Profile**

Drops of Change is a non-profit organization dedicated to fostering positive social impact through grassroots community-focused initiatives. The organization primarily works across key domains including community development, civic awareness, environmental cleanliness drives, and public welfare.

In addition to ground-level initiatives, Drops of Change actively leverages digital platforms and creative visual content to reach wider audiences. By utilizing digital storytelling and informative short-form media, the organization aims to inspire civic responsibility and mobilize the youth to actively participate in community transformation.

### **3. Problem Statement & Creative Need**

While digital content is saturated with entertainment media, crafting high-retention, short-form visual stories that drive real social responsibility presents a distinct editorial challenge. Raw video clips collected from on-ground NGO activities are often fragmented, shot under varied lighting conditions, and lack a coherent narrative. The objective of this project was to take unstructured documentary-style clips and transform them into a fast-paced, emotionally resonant community awareness campaign centered on cleanliness and unity.

### **4. Objectives of the Internship**

- To cut, trim, and assemble raw field clips into a cohesive narrative sequence.
- To integrate kinetic typography, text overlays, and seamless transitions to retain viewer interest.

- To balance background music, sound bites, and visual beats using precise timeline audio-video synchronization.
- To design an impactful narrative structure contrasting unmaintained environments with revitalized public spaces.
- To master quick turnaround times, revision workflows, and team communication in a remote setting.

#### **4.5 Scope of the Project**

The project scope encompassed the complete post-production pipeline for short-form digital media (Reels/Shorts format). This included footage curation, rough cuts, fine cutting, audio mastering/beat matching, graphic overlays, final rendering, and iterative revisions based on organizational guidelines.

#### **4.6 Tools & Technical Skills Used**

- Editing Software: Non-Linear Video Editors (Premiere Pro / CapCut / DaVinci Resolve)
- Core Technical Skills: Timeline trimming, multi-layer track management, keyframing, transitions, aspect ratio formatting (9:16 vertical)
- Audio & Typography: Dynamic text overlays, subtitle timing, audio leveling, and beat-matching

## 4.7 Video Pipeline & Narrative Architecture

The Video Editing and Content Creation workflow was structured into a modular, high-retention post-production pipeline designed specifically for short-form social awareness content:

- **Asset Ingestion & Sorting Layer:**  
Raw field recordings, community footages, and audio clips were systematically categorized into thematic bins (Hook, Before/Unclean, Cleanliness Drive/Action, and After/Clean) to ensure smooth timeline assembly.
- **Assembly & Narrative Cut Layer:**  
Non-linear sequence building focused on pacing and structural progression, transforming unorganized documentary clips into a focused "Before vs. After" visual contrast.
- **Motion Graphics & Typography Layer:**  
Creation of kinetic text overlays, dynamic opening questions ("Wanna see the power of unity?"), subtitle timing, and seamless visual cut transitions tailored for vertical 9:16 viewing.
- **Audio Engineering & Synchronization Layer:**  
Multi-track audio processing, beat-matching visual cuts with energetic background music, leveling volume, and adding sound cues to emphasize community transformation.
- **Narrative Resolution & Delivery Layer:**  
Structuring the final call-to-action outro ("Be a part of the change."), running color correction, rendering optimized high-definition video files, and incorporating team feedback for final release.

## 4.8 Methodology & Workflow

The internship was executed following a structured, milestone-driven methodology combining theoretical review, modular software design, and hands-on coding over a 4-6 week duration:

| Week     | Milestone/Module                 | Technical Description                                                                                              |
|----------|----------------------------------|--------------------------------------------------------------------------------------------------------------------|
| Week 1-2 | Workflow Setup & Footage Sorting | Reviewing raw community footage, organizing asset bins, logging metadata, and establishing target video formats.   |
| Week 3-4 | Rough Cuts & Assembly            | Building sequence timelines, trimming unwanted footage, and establishing the "Before vs. After" structural pacing. |

|          |                                     |                                                                                                                     |
|----------|-------------------------------------|---------------------------------------------------------------------------------------------------------------------|
| Week 5-6 | Audio Synchronization & Motion Text | . Aligning video cuts with background audio tracks, generating dynamic subtitles, and embedding visual transitions. |
| Week 7-8 | Review Iteration & Final Delivery   | Implementing feedback from the media lead, color adjustments, final exporting, and packaging project files..        |

#### 4.9 Challenges & Solutions

->Hands-on Video Editing & Sequencing:

Gained practical proficiency in trimming, cutting, and arranging raw clips into a coherent, high-impact narrative on the editing timeline.

->Visual Storytelling for Social Impact:

Learned how to craft high-retention short-form content that communicates community issues and drives civic awareness among viewers.

-> Audio-Visual Synchronization:

Mastered the ability to beat-sync visual cuts with background audio, level sound tracks, and add contextual sound effects to enhance emotional resonance.

-> Motion Text & Dynamic Typography:

Implemented animated captions, text overlays, and seamless transition effects to maintain viewer engagement and retention on social platforms.

->Structured Narrative Progression (Before vs. After):

Successfully executed a structured visual arc comparing neglected public spaces with revitalized surroundings to deliver a clear call to action.

->Professional Remote Collaboration:

Learned how to manage media assets, follow organizational creative briefs, integrate mentor feedback, and meet project delivery deadlines.

#### 4.10 Certificates of Completion and Communication Proof

The official Internship Certificate of Completion (Certificate ID: 10086) issued by Drops of Change confirms the successful completion of the Video Editing & Content Creation Internship.

Drops Of Change...

14 Aug

to me

Dear Ritu,

We hope this email finds you well. We are pleased to provide a certificate to acknowledge your valuable contribution during your tenure with our organization, Drops of change welfare Society .

You were a dedicated and committed member of our team, and their service has significantly contributed to our mission. Your commitment to our cause and your unwavering dedication to the work have left a lasting impact on our organization.

Your passion for our cause and their willingness to go above and beyond in their role made them an exemplary team member. We are grateful for their contributions and the positive influence they have had on our team and the communities we serve.

We wish you continued success in their future endeavours and hope that their experience with Drops of change welfare society has equipped you with valuable skills and experiences that will serve them well in your career.
