

INTERNSHIP PRESENTATION

VIDEO EDITING & CONTENT CREATION

Ritu Kumari

Enrollment No.: 25scs1003000591

B.Tech – Computer Science & Engineering | 3rd Semester

Organization: Drops of Change

Role: Video Editor

Duration: 1 June 2026 – 1 August 2026

About the Organization

Drops of Change works towards creating positive social impact through community-focused initiatives.

Key areas include community development, social awareness, cleanliness and environmental initiatives.

The organization also uses digital content to encourage people to contribute to positive change.

Internship Overview

Organization: Drops of Change

Role: Video Editor

Duration: 1 June 2026 – 1 August 2026

Mode: Online / Remote

Certificate No.: 10086

My role focused on creating and editing videos to communicate the organization's activities and social initiatives effectively.

Objectives of the Internship

- Gain practical experience in video editing
- Understand professional content creation
- Improve creativity and visual storytelling
- Learn how digital content can create social awareness
- Develop communication and teamwork skills
- Gain real-world professional experience

Work & Responsibilities

Edited video clips provided by the organization

Cut and arranged clips in a meaningful sequence

Added text overlays and transitions

Synchronized visuals with music/audio

Created engaging social-media-friendly content

Followed team instructions and incorporated feedback

Project / Video Editing Task

Community awareness video focused on cleanliness and the impact of community participation.

Video structure: “Wanna see the power of unity?” → “Let’s see...”

BEFORE: Unclean surroundings

AFTER: Clean surroundings

Ending message: “Be a part of the change.”

Tools & Skills Developed

Video editing: cutting, trimming and clip arrangement

Text overlays, transitions and audio synchronization

Basic visual effects and storytelling

Creativity and attention to detail

Communication, teamwork and time management

Challenges & Solutions

Limited editing resources → adapted the workflow to available tools

Multiple video clips → organized clips according to the storyline

Need for an engaging video → used a clear Before → After structure

Working according to requirements → followed instructions and implemented feedback

Learning Outcomes

- Practical experience in video editing
- Better understanding of visual storytelling
- Experience creating content for social awareness
- Improved creativity and attention to detail
- Better communication and teamwork
- Greater confidence in handling real-world projects

Conclusion

The internship at Drops of Change was a valuable learning experience.

It helped me develop video editing, creativity, communication, teamwork and professional skills.

Working on real organizational content showed me how digital media can communicate ideas and encourage positive social change.

Overall, the internship helped transform my editing skills into practical professional experience.
